She was having trouble maintaining a job due to various circumstances. Fast forward to the present, she has taken every opportunity working with her Patient Navigator and her DCC to start GED classes, parenting classes and WV Work Force appointments scheduled. Gabby is a hard-working mom who takes every opportunity to better her and her child's life. She takes initiative and is not afraid to ask for help! Working within this program she has had the ability to build a bright future for her and her child and she's excited for what's next!"

"When I walked into this house I was lost, broken, afraid and nowhere near ready to open up to anyone. I did and said everything I thought the stay here wanted me to do and say. Not only did I lie to them on a regular basis, I was lying to myself. I felt that as long as I agreed to come into this program, I could get my kids back. I thought I would come here long enough to accomplish that and then get back to my life. I was still very much in denial. I didn't think I needed this program.

Things changed when I met my recovery coach. She made me take ownership for my actions for the first time in my life. Her exact words to me were "I will help you as long as you are honest with me". To her, I want to say thank you! Thank you for being what helped save me, what finally made me open my eyes. Thank you for knowing all of the evil things I have done and never once judging me for them. Thank you for sticking by my side and guiding me in my recovery. Thank you for taking the time to truly get to know me and for always letting me vent to you. Thank you for always making sure I stayed on the right track. For always being in my corner and always being there when I need you. I could never have asked for a better recovery coach. You have taught me so much and I can't begin to tell you how grateful I am to you, how much I appreciate you and how huge of a role you have played in my journey. I honestly don't believe I would have made it to where I am today had you not came into my life. Thank you a million times over."

"I volunteer because I see how many lives are touched by the work of Burlington. I do not see the people that are served by Burlington as numbers, but as my neighbors, families in my community, in my State, families who struggle without the work of Burlington. I see the faces of so many children and families who now know hope, life skills, peace because of their time with Burlington. Because of Burlington, my eyes have been opened to how much we need to work together to provide hope!"
